THE MOSCOW STATEMENT (continued from page 53)

versally recognized vanguard of the world Communist movement, being the most experienced and steered contingent of the international Communist movement. The experience which the CPSU has gained in the struggle for the victory of the working class in Socialist construction and in the full-scale construction of Communism is of fundamental significance for the entire world Communist movement.

The example of the CPSU and its fraternal solidarity inspire all the Com-

munist Parties in their struggle for peace and Socialism and represent the revolutionary principles of proletarian internationalism applied in practice. The historic decisions of the 20th Congress of the CPSU are not only of great importance for that Party and for Communist construction in the USSR, the statement says. They have initiated a new stage in the world Communist movement and promoted its further development on the basis of Marxism-Leninism.

The statement concludes with these words: The meeting regards the further consolidation of the Communist Parties on the basis of Marxism-Leninism and proletarian internationalism as a primary condition for the integration of all working class, democratic, and progressive forces and as a guarantee of new victories for the world Communist and working class movement in its great struggle for a happy future for all mankind and the triumph of peace and Socialism.
